Tech Skill

- Java | Spring Boot | Hibernate | Maven
- JavaScript | NodeJs | ExpressJs | Sequelize
- Angularjs | TypeScript | HTML | CSS
- JWT | Bootstrap | Postman | RailwayCloud
- Git & GitHub | Data Structure | VsCode | STS

Soft Skill

- Quick Learner | Communication
- Multi tasking | Online Collaboration

Education

- **Java Backend Development**
  Masai School - Bengaluru

- **Bachelor's in Computer App. (BCA)**
  Swami Vivekanand Subharti Uni.- Meerut

- **Diploma in Computer App.**
  Realtec Computer - Allahabad U.P.

- **Intermediate (12th)**
  A V Niketan I C Naini Allahabad U.P.

Work Experience

- **CSC VLE (CSC) Work Experience**
  06/2021 to 02/2022

- *Proficiently handled a range of responsibilities, including income certificates, domicile certificates, caste certificates, Indane gas service, electricity bill payments, mobile bill payments, Ayushman Bharat scheme, E-Shram Card, and ration card services.*
- *Leveraged digital solutions to streamline processes and improve service accessibility.*
- *Committed to providing effective support and enhancing citizen welfare.*

About Me

Proactive computer science graduate with a strong interest in software engineering. Skilled in Java, MySQL, Hibernate, Spring Boot, Node.js, and AngularJS. Demonstrates excellent analytical abilities, effective communication skills, and the ability to work well within a team. Committed to delivering high-quality software solutions.

Project

- **Blog Management Application System** ○ *Video*

Created a user-friendly blog management system with robust functionalities, including content creation, editing, categorization, and search capabilities. Implemented modern technologies and coding best practices to ensure optimal performance.

Techstack :
Java, Mysql, Hibernate, Maven, Springboot, Spring Data Jpa, Spring Sucerity, Swagger, GitHub

Features:
Sign-up, Log-in, Search, sort, Pagination, Update, Delete, Comment

Duration :
- *An individual project executed in 6 days.*

- **Payment Wallet System** ○ *Video*

Collaborated with a dedicated team of 5 members to create a robust payment application system. Developed functionalities for transaction recording, invoice generation, and user management. Showcased effective teamwork for delivering a high-performing payment solution.

Techstack :
Java, Mysql, Hibernate, Springboot, Spring Data Jpa, Swagger, GitHub

Features:
Sign-up, Log-in, Search, Update, Delete, Comment, add a/c, show transaction, etc...

Areas of responsibility:
- *User Login authentication*
- *validation for the mobile number*
- *validation for the account number and IFSC code*
- *validation for the current user and user identification*

Duration :
- *A collaborative project built by a team of 5 Developer*

Achievements

- **HackerRank Certifications in MySQL, Java, Problem Solving**
  HackerRank certified in MySQL, Java, Problem Solving. Skilled in database management, Java programming, and logical reasoning. Recognized for problem-solving abilities and effective coding techniques. (certificate)

- **Zoom Marathon Challenge**
  The Zoom Marathon Challenge program took place at Masai School. I completed that marathon which was of 26 days. In this marathon challenge, a video of 3-5 minutes has to be uploaded daily. (Certificate)

- **Excellence in E-Shram Card Implementation and Management**
  Excellence in E-Shram Card (CSC VLE) certified professional. Skilled in effectively handling E-Shram Card operations, facilitating worker registration, and optimizing benefits administration. Committed to utilizing digital platforms for enhancing labor welfare. (certificate)
